Welcome!

I created the Photo Lounge because I believe your guests deserve the very best. These portraits aren't just fun snapshots — they become keepsakes your guests will treasure, frame, and even use as their annual family photos.

My goal is to bring a studio-quality experience to your celebration, giving every guest a chance to feel seen, styled, and celebrated. I love working in a fast-paced environment and guiding guests into both candid and polished poses. And truly, how often do we get timeless, high-quality portraits of our elders — dressed to the nines and surrounded by loved ones? The Photo Lounge makes that possible.

Background & Setup Options

I love collaborating with my couples (and planners when applicable) to design the perfect setting for the Photo Lounge. There are a few ways this usually comes together:

Using the Venue Space

Many couples already have an area in mind at their venue. In this case, we simply designate that spot for the lounge, and sometimes add rented furniture to enhance the look.

With a Designer or Planner

If you're working with a planner or event designer, I'll coordinate with them directly so the lounge ties seamlessly into the overall wedding design.

Simple Backdrop by Me

If you prefer a clean and timeless option, I can provide a minimal backdrop setup that works beautifully in almost any space.

The Process

The Photo Lounge is designed to be seamless, fun, and memorable for every guest. From the moment they step in, the process is simple and interactive — giving them an elevated portrait experience while creating keepsakes they can take home the very same day.

Step into the Lounge

Each guest (or group) gets a few portraits — a mix of posed and candid shots to capture their personality.

See It Instantly

Every photo is tethered to our live editor and displayed on a screen so guests can enjoy the experience in real time.

Take Home a Souvenir

Each session includes one keepsake print. All edited photos are also uploaded to a QR link by the end of the day for easy sharing and downloading.

Color or Black & White

All images are photographed and printed in color. Guests can choose to view and download their photos in black & white from the online gallery.

The Investment

INITIAL HOUR

- One Hour Coverage- \$900
- One Photographer
- One Editor
- Online Gallery for your guests
- Printer Rental + Paper
- C-Stand Rental
- 300W Photo Strobe Rental
- 4K Monitor Rental
- Set-up Time Fees

ADD-ONS

- Extra Hours: \$300/hr
- Downtime Hours: \$100/hr
- Simple Backdrop Set-up and Materials : \$100
- Travel Fees (Over 50 miles from SF County): \$150 flat rate
